**Outcomes- Students will be able to understand, analyse, differentiate, evaluate, compare, assess, find and practically use the concepts given below.**

1	I	MAT1A	Financial Accounting	<ul style="list-style-type: none"> <li>Students will learn basic accounts such as single entry, depreciation, double entry, rectification of errors.</li> </ul>
2	I	MAT1B	POM	<ul style="list-style-type: none"> <li>Understand functions of management, planning concepts, organising, recruitment, selection procedure, training, co-ordination and control</li> </ul>
3	I	MBT1A	Computer application in Business	<ul style="list-style-type: none"> <li>Basic Concepts of computers, features, functions and its usage in day to day life.</li> </ul>
4	I	MAMTA	Business Communication	<ul style="list-style-type: none"> <li>Basic principles and barriers for effective communication, business letters into application letter, appointment order, enquiries, sales order, and complaint letter, bank, insurance, and agency correspondence use of modern forms of communication like fax, email, and video conferencing prepare reports, meeting agenda, minutes, memorandum, office order, and circulars</li> </ul>
5	II	MAT2B	HRM	<ul style="list-style-type: none"> <li>Introduction, Training, Compensation, labour relation and HR audit</li> </ul>
6	II	MBT2A	Data Structure	<ul style="list-style-type: none"> <li>Basic Terminology and Concepts will be defined and relevant examples provided. Data Organization and certain data Structures will be covered along with different operations. Applications of Data Structure. Representation of Data Structure.</li> </ul>
7	III	MAT3A	LSCM	<ul style="list-style-type: none"> <li>Logistics, types, significance, Supply chain management, trends, types, technologies used, prospects</li> </ul>
8	III	MBT3A	BUSINESS STATISTICS	<ul style="list-style-type: none"> <li>Students who successfully complete this paper should be able to: Select appropriate statistical techniques for summarizing and displaying business data. Analyze and draw inferences from business data using appropriate statistical methods and computer software. Interpret and communicate the results of a statistical analysis in the context of a business problem</li> </ul>
9	III	MAT3B	Programming in C	<ul style="list-style-type: none"> <li>Recollect various programming constructs and to develop C programs.</li> <li>Understand the fundamentals of C programming.</li> <li>Choose the right data representation formats based on the requirements of the problem.</li> </ul>

S. No	Sem	Sub Code	Sub Name	Course outcome
				<ul style="list-style-type: none"> <li>Implement different Operations on arrays, functions, pointers, structures, unions and files.</li> </ul>
10	III	MAT3C	Marketing Management	<ul style="list-style-type: none"> <li>Basic concepts of Marketing, Segmentation, Buying Behaviour, Marketing Mix, New Product Development, Stages in New products, Channels of Distribution, Advertising, Consumer rights, Grievances forum</li> </ul>
11	IV	MAT4B	OOPS with C++	<ul style="list-style-type: none"> <li>Principles of Object Oriented Programming. OOPs. Learning about Software Evaluation. Application of OOPs. Basic Concepts of OOPs. Benefits of OOPs.</li> </ul>
12	IV	MAT4C	Business Environment	<ul style="list-style-type: none"> <li>Changing dimensions of business environment types of business environment and tools for scanning the environment, effects of government policy on economic environment analyse the importance and impact of changing laws and regulations on business firm</li> </ul>
13	IV	MAT4A	Mgmt. Information System	<ul style="list-style-type: none"> <li>Introduction to MIS, Maintaining the records of the organisation, DSS, GDS, BPO, System analysis and design, SDLC. Understand the world of computer.</li> </ul>
14	IV	MBT4A	Elements of OR	<ul style="list-style-type: none"> <li>Need and scope of Operational Research , formulate and solve linear programming problems , demonstrate and develop transportation and assignment models , to analyse and solve game theory problems</li> </ul>
15	V	MAT5C	Financial Management	<ul style="list-style-type: none"> <li>After completion of the course the students can get thorough knowledge about Financial management and able to know how to maintain the records of the companies.</li> </ul>
16	V	MAT5B	Elements of Cost Accounting	<ul style="list-style-type: none"> <li>Explain the meaning of cost sheet and how to prepare cost sheet and also teach the different cost like Prime cost, Factory cost, cost of production, cost of sale, material control, labour cost control, overheads costing.</li> </ul>
17	V	MAT5A	VB Programming	<ul style="list-style-type: none"> <li>Demonstrate fundamental skills in utilizing the tools of a visual environment such as command, menus and toolbars.</li> <li>Implement SDI and MDI applications using forms, dialogs, and other types of GUI components. Understand the connectivity between VB with MS-ACCESS, ORACLE and SQL and SQL database. Implement the methods and techniques to develop projects.</li> </ul>
18	V	MATEA	Web Technology	<ul style="list-style-type: none"> <li>Theoretical knowledge on website, how to host their own website, internet knowledge, web pages creation, storing data in web.</li> </ul>
19	VI	MAT6A	Management Accounting	<ul style="list-style-type: none"> <li>Management accounting concepts, analysis and interpretation, ration analysis, fund flow and cash flow statements. understands the marginal costing</li> </ul>

S. No	Sem	Sub Code	Sub Name	Course outcome
20	VI	MAT6C	SPM	<ul style="list-style-type: none"> <li>Analyze the fundamentals of project management and compare different software engineering process models.</li> <li>Understand various concepts involved in project management, project planning and project scheduling.</li> <li>Analyze project risks, monitor and track project deadlines and produce a work plan and resource schedule.</li> <li>Apply the project management tools and techniques in a diversity of fields that include new product and process development, construction, information technology, and applied research.</li> </ul>
21	VI	MAT6B	E-Business	<ul style="list-style-type: none"> <li>On successful completion of this module students should be able to understand concepts of E-Commerce and E- business</li> <li>Understand the E-Commerce and E- business infrastructure and trends.</li> <li>Analyze different types of portal technologies and deployment methodologies commonly used in the industry. Analyze the effectiveness of network computing and cloud computing policies in a multi-location organization.</li> <li>Analyze real business cases regarding their e-business strategies and transformation processes and choices. Integrate theoretical frameworks with business strategies.</li> </ul>
<b>B.Com (CS) (ODD SEMESTER)</b>				
1	I	AY31A	International Trade	<ul style="list-style-type: none"> <li>This course deals with the theory and practice of international trade and of trade-related policies. It focuses on analysing the gains from trade, the changing patterns of trade, the income distributional consequences of liberalising foreign trade, the relationship between trade, investment, and economic growth, and the reasons for and consequences of trade policies.</li> </ul>
2	I	AY21A	Financial Accounting-I	<ul style="list-style-type: none"> <li>Students will learn basic accounts such as single entry, depreciation, double entry, rectification of errors.</li> </ul>
3	I	AY21B	Business Communication	<ul style="list-style-type: none"> <li>Effective business writing. research approaches and information collection. developing and delivering effective presentations. Effective interpersonal communications.</li> </ul>
4	III	CYA3B	Company Law	<ul style="list-style-type: none"> <li>After completion of the course the students can get thorough knowledge about company law and secretarial practices. It will help the students when they are going for a job and higher studies.</li> </ul>

S. No	Sem	Sub Code	Sub Name	Course outcome
5	III	CYA3C	Corporate A/C	<ul style="list-style-type: none"> <li>After completion of the course the students can get thorough knowledge about Corporate Accounting and the way of maintaining the accounting records. It will help the students when they are doing the accounts of a company.</li> </ul>
6	V	CYA5D	Commercial Law	<ul style="list-style-type: none"> <li>After completion of the course the students can get thorough knowledge about the law regarding business. It also describes about the various laws which are assisting the business people to undertake their business in effective and efficient way.</li> </ul>
7	V	CYA5C	Income Tax	<ul style="list-style-type: none"> <li>Students can able to recognize the income tax act concepts and can understand the Income and taxation from salaries, income from house property and also the deductions with various laws and policies.</li> </ul>
8	V	CYA5E	Management A/C	<ul style="list-style-type: none"> <li>After completion of the course the students can get thorough knowledge about Management Accounting. It will help the students when they are going for a job and higher studies.</li> </ul>
9	V	CYA5B	Securities Law	<ul style="list-style-type: none"> <li>After completion of the course the students can get thorough knowledge about capital market and also know the important of capital market in Indian economy.</li> </ul>
10	V	CYE5A	Entrepreneurial Development	<ul style="list-style-type: none"> <li>The expected Student Learning Outcomes for the Entrepreneurship and Innovation Program are: Students advance their skills in customer development, customer validation, competitive analysis, and iteration while utilizing design thinking and process tools to evaluate in real-world problems and projects.</li> </ul>

### **B.Com (CS) (EVEN SEMESTER)**

1	II	AY22B	Corporate Management	<ul style="list-style-type: none"> <li>It describes the students to understand the basic concept of management. It will help the students when they are going for a job in corporate world.</li> </ul>
2	II	AY22A	Advance Financial Accounting	<ul style="list-style-type: none"> <li>It describes the significant and essential learning that learners have achieved, and it can be reliably demonstrate at the end of a course or program. In other words, learning outcomes identify what the learner will know and be able to do by the end of a course or program.</li> </ul>
3	II	AY32A	Business Economics	<ul style="list-style-type: none"> <li>Learning will help students to recognize the various concepts of economics to know about the demand and supply, laws of production and consumer behaviour</li> </ul>
4	IV	CYA4C	Corporate Accounting II	<ul style="list-style-type: none"> <li>After completion of the course the students can get thorough knowledge about corporate accounting and the way of maintaining the accounting records. It will help the students when they are doing the accounts of a company.</li> </ul>
5	IV	CYA4B	Business Management	<ul style="list-style-type: none"> <li>After completion of the course the students can get thorough knowledge about Business Management. It will help the students when they are going for a job and higher studies.</li> </ul>

S. No	Sem	Sub Code	Sub Name	Course outcome
6	VI	CYA6F	Income Tax –II	<ul style="list-style-type: none"> <li>Learning will help students to recognize the various concepts of income tax concepts, agricultural income and procedures and computation of income tax of individuals</li> </ul>
7	VI	CYA6A	Cost Accounting	<ul style="list-style-type: none"> <li>After completion of the course the students can get thorough knowledge about Cost Accounting. It will help the students when they are going for a job and higher studies.</li> </ul>
8	VI	CYE6Q	Project	<ul style="list-style-type: none"> <li>To bridge the gap between theory &amp; practice and stimulate trainee's desire to face the challenges and problems in a corporate environment. To get an overview of the practical aspects of Company Secretaryship.</li> </ul>
9	VI	CYA6G	Goods & Service Tax	<ul style="list-style-type: none"> <li>The students to gain knowledge of the Principles of the Goods and Service Tax. To highlight the students about the Customs duty, Excise duty, VAT.</li> </ul>
10	VI	CYA6E	Industrial Law	<ul style="list-style-type: none"> <li>The students can know about the meaning, formation of (contract) every legal aspect, important and recent case laws, with latest amendments and they can update their knowledge.</li> </ul>

### **B.Com (CA) (ODD SEMESTER)**

1	I	CZ21A	Financial Accounting I	<ul style="list-style-type: none"> <li>Students will learn basic accounts such as single entry, depreciation, double entry, rectification of errors.</li> </ul>
2	I	CP211	Office Automation Theory & Practicals	<ul style="list-style-type: none"> <li>To provide an in-depth training in use of <b>office automation</b>, internet and internet tools. The <b>course</b> also helps the candidates to get acquainted with IT. <b>Learning Outcomes:</b> After completion of the <b>course</b>, students would be able to documents, spread sheets, make small presentations and would be acquainted with internet.</li> </ul>
3	I	CZ31A	Business Economics	<ul style="list-style-type: none"> <li>To develop the students about the new economic policy and industrial development.</li> <li>To impact the knowledge about the agriculture and irrigation.</li> <li>To help the students to know about the nation five years plans.</li> </ul>
4	III	CPC3B	Business Law	<ul style="list-style-type: none"> <li>Appreciate the relevance of business law to individuals and businesses and the role of law in an economic, political and social context. Understand the legal and fiscal structure of different forms of business organizations and their responsibilities as an employer.</li> </ul>
5	III	CPC3A	Corporate A/C	<ul style="list-style-type: none"> <li>After completion of the course the students can get thorough knowledge about Corporate Accounting and the way of maintaining the accounting records. It will help the students when they are doing the accounts of a company.</li> </ul>

S. No	Sem	Sub Code	Sub Name	Course outcome
6	III	CPC31	Computerised Accounting (Theory & Practical)	<ul style="list-style-type: none"> <li>After completion of the course the students can get thorough knowledge about the computerised accounting. It will help the students when they are going for a job and higher studies.</li> </ul>
7	III	CPC32	OOPS WITH C++	<ul style="list-style-type: none"> <li>Understand the concept of OOP as well as the purpose and usage principles of inheritance, polymorphism, and encapsulation.</li> <li>Identify classes, objects, members of a class and the relationships among them needed for a specific problem.</li> <li>Develop the skills to apply C++ programming in problem solving.</li> <li>Should get the ability to extend his/her knowledge of C++ programming further on his her own</li> </ul>
8	V	CPC5C	Cost Accounting	<ul style="list-style-type: none"> <li>After completion of the course the students can get thorough knowledge about Cost Accounting. It will help the students when they are going for a job and higher studies.</li> </ul>
9	V	CPC5A	Financial Management	<ul style="list-style-type: none"> <li>After completion of the course the students can get thorough knowledge about Financial management and able to know how to maintain the records of the companies.</li> </ul>
10	V	CPC51	Visual Basic	<ul style="list-style-type: none"> <li>Learn the fundamentals of designing, implementing, and distributing Visual Basic applications.</li> <li>Learn to use the Visual Basic toolbox</li> <li>Define a Database Management System</li> <li>Give a description of the Database Management structure</li> <li>Define a Database</li> <li>Define basic foundational terms of Database</li> <li>Understand the applications of Databases</li> <li>Know the advantages and disadvantages of the different models</li> <li>Learn how to design a form with data report</li> <li>Discuss the techniques of ADO and various connection objects.</li> </ul>
11	V	CPC5B	Practical Auditing	<ul style="list-style-type: none"> <li>Student will be able to recognize various techniques of auditing, reporting and other aspects such as EDP auditing and difference in accounting and auditing.</li> </ul>
12	V	CVC5A	Income Tax	<ul style="list-style-type: none"> <li>After completion of the fifth semester income tax subject, students can evaluate the meaning, reasons, impact of changes on the taxable income, liability and other related issues.</li> </ul>

S. No	Sem	Sub Code	Sub Name	Course outcome
<b>B.Com (CA) (EVEN SEMESTER)</b>				
1	II	CZ221	Python	<ul style="list-style-type: none"> <li>To understand why <b>Python</b> is a useful scripting language for developers.</li> <li>To learn how to design and <b>program Python</b> applications.</li> <li>To learn how to use lists, tuples, and dictionaries in <b>Python</b> programs.</li> <li>To learn how to identify <b>Python</b> object type.</li> </ul>
2	II	CZ22A	Advanced Financial Accounting	<ul style="list-style-type: none"> <li>Learning outcomes are statements that describe significant and essential learning that learners have achieved, and can reliably demonstrate at the end of a course or program. In other words, learning outcomes identify what the learner will know and be able to do by the end of a course or program.</li> </ul>
3	II	CZ32A	Indian Economy	<ul style="list-style-type: none"> <li>To know the awareness of the unemployment, inequalities, and the importance of foreign trade.</li> <li>To develop the students about the new economic policy and industrial development.</li> <li>To impart the knowledge about the agriculture and irrigation.</li> <li>To help the students to know about the nation five years plans.</li> </ul>
4	IV	CPC41	Java	<ul style="list-style-type: none"> <li>Understand the concept of OOP as well as the purpose and usage principles of inheritance, polymorphism, encapsulation and method overloading.</li> <li>Identify classes, objects, members of a class and the relationships among them needed for a specific problem.</li> <li>Create Java application programs using sound OOP practices (e.g., interfaces and APIs) and proper program structuring.</li> <li>Develop programs using the Java Collection API as well as the Java standard class library.</li> <li>Develop the skills to apply java programming in problem solving.</li> </ul>
5	IV	CPC4A	Corporate Accounting	<ul style="list-style-type: none"> <li>After completion of the course the students can get thorough knowledge about Advanced Corporate Accounting. It will help the students when they are going for a job and applications of accounting transactions in corporate sector.</li> </ul>
6	IV	CPC4C	E-Commerce	<ul style="list-style-type: none"> <li>After completion of the course the students can get thorough knowledge about E-Commerce. It will help the students when they are going for a job and higher studies.</li> </ul>

### M.Sc. Computer Science

1	I	PSD1A	Design and Analysis of Algorithms	<ul style="list-style-type: none"> <li>Able to write rigorous correctness proofs for <b>algorithms</b>. Demonstrate a familiarity with major <b>algorithms</b> and data structures.</li> </ul>
2	I	PSD1B	Advanced Java Programming	<ul style="list-style-type: none"> <li>Develop error-free, well documented <b>Java</b> programs; develop and test <b>Java</b> network, search engine, and web framework programs. Learn how to write, test, and debug <b>advanced</b>-level Object-Oriented programs using <b>Java</b>.</li> </ul>
3	I	PSD1C	System Software	<ul style="list-style-type: none"> <li>Understand the different components of System Software.</li> </ul>
4	I	PED1A	Theoretical Foundations of Computer Science	<ul style="list-style-type: none"> <li>Ability to understand the theory of Maths and Computer Science</li> </ul>
5	II	PSD2A	Computer Networks	<ul style="list-style-type: none"> <li>Enables to understand the growth of new technologies with global communication.</li> </ul>
6	II	PSD2B	Digital Image Processing	<ul style="list-style-type: none"> <li>Understand the need for <b>image</b> transforms different types of <b>image</b> transforms and their properties.</li> </ul>
7	II	PED2A	Object Oriented Analysis and Design	<ul style="list-style-type: none"> <li>Demonstrate the ability to apply the <b>knowledge</b> of object oriented concepts for solving system modeling and design problems.</li> </ul>

S. No	Sem	Sub Code	Sub Name	Course outcome
8	II	PSDEA	Mobile Computing	<ul style="list-style-type: none"> <li>Understand fundamentals of wireless communications. Analyze security, energy efficiency, mobility, scalability, and their unique characteristics in wireless networks</li> </ul>
9	III	PSD3A	Principles of Compiler Design	<ul style="list-style-type: none"> <li>Understanding different considerations and phases of compilation.</li> </ul>
10	III	PSD3B	Information Security	<ul style="list-style-type: none"> <li>Gaining knowledge of security and data management.</li> </ul>
11	III	PSD3C	Artificial Intelligence	<ul style="list-style-type: none"> <li>Application of the basic principles, models, and algorithms of <b>AI</b> to recognize, model, and solve problems in the analysis and design of information systems.</li> </ul>
12	III	PSDEF	Distributed Database Management Systems	<ul style="list-style-type: none"> <li>Understanding distributed <b>database systems</b> architecture and design. Be able to apply methods and techniques for <b>distributed</b> query processing and optimisation.</li> </ul>
13	III	PSDEJ	Cloud Computing	<ul style="list-style-type: none"> <li>Analyzing the core issues of <b>cloud computing</b> such as security, privacy, and interoperability. Choose the appropriate technologies, algorithms, and approaches for the related issues.</li> </ul>

## MAHRM

1	I	PMC1A	Managerial concepts and Business ethics	<ul style="list-style-type: none"> <li>In this study, an attempt has been made to capture the attitude of management graduates towards the business ethics and its importance in their personal and professional lives, and the role of ethics education in managerial decision making. Overall, the study supports the theory of reasoned action.</li> </ul>
2	I	PMC1B	Organisational Behaviour	<ul style="list-style-type: none"> <li>On completion of this course, the students will be able to demonstrate the applicability of the concept of organizational behaviour and to understand the behaviour of people in the organization.</li> <li>Also to demonstrate the applicability of analyzing the complexities associated with management of individual behaviour in the organization.</li> <li>To Analyze the complexities associated with management of the group behaviour in the organization.</li> </ul>
3	I	PMCIC	Human Resource Management	<ul style="list-style-type: none"> <li>To contribute to the development, implementation, and evaluation of employee recruitment, selection, and retention plans and processes. To administer and contribute to the design and evaluation of the performance management program. Develop, implement, and evaluate employee orientation, training, and development programs.</li> </ul>

S. No	Sem	Sub Code	Sub Name	Course outcome
4	I	PMC1D	Legal Framework governing Human Relations	<ul style="list-style-type: none"> <li>To understand the basic classification of law, principles of natural justice etc.</li> <li>To gain knowledge on the basics of contract law and its principles To understand the various aspects of company law, the formation of company and its related legal aspects</li> <li>To gain insight into the legal framework regarding various rights of consumers</li> </ul>
5	I	PMCAA	Computer Languages for Management	<ul style="list-style-type: none"> <li>To gain proficiency in the use of personal computers .</li> <li>To gain knowledge on the basics of Word, Excel, creation of spread sheets etc</li> <li>To gain an insight into the use of database concepts and effectively apply them in business field.</li> <li>To gain knowledge into the use of computer networks in business</li> </ul>
6	II	PMC2E	Management Training and Development	<ul style="list-style-type: none"> <li>explain the role of training and development in human resources management.</li> <li>describe the psychology of the learning process on which training is based.</li> <li>analyze the training needs of an organization. assess, design, access and implement various methods, techniques and sources of training.</li> <li>evaluate the value of the training once completed from the individual employee and the organization's viewpoint.</li> </ul>
7	II	PMC2G	Industrial Relations	<ul style="list-style-type: none"> <li>To familiarize students with the basic concepts of industrial relations, its philosophy, origin and development.</li> <li>To develop knowledge on trade unions and its formation, structure, functions and legal framework.</li> <li>To gain insight into the process of collective bargaining, its origin and development.</li> <li>To gain understanding on industrial disputes, its causes, manifestation and effects</li> </ul>
8	II	PMC2H	Performance Management	<ul style="list-style-type: none"> <li>Systematically decide and communicate strategic performance aims, objectives, priorities and targets.</li> <li>Plan effective performance management policies and practices to improve organisational and employee performance.</li> </ul>
9	II	PM CAB	Organizational Development	<ul style="list-style-type: none"> <li>able to think analytically and creatively in your approach to e.g. organisational problem solving; analyse your own and others roles and practices for securing effective change through OD; provide persuasive arguments to support your position and cases.</li> </ul>

S. No	Sem	Sub Code	Sub Name	Course outcome
10	II	PMCBA	Accounting for Managers	<ul style="list-style-type: none"> <li>To understand the basic concepts and principles of accounting in business transactions.</li> <li>To familiarize with the preparation and analysis of financial statements.</li> <li>To gain insight into the budget and budgetary control measures To enable students to make use of accounting information for decision making and control</li> </ul>
11	II	PMCAC	Strategic Management	<ul style="list-style-type: none"> <li>Explains the basic concepts, principles and practices associated with strategy formulation and implementation.</li> <li>Analyze and evaluate critically real life company situations and develop creative solutions, using a strategic management perspective.</li> </ul>
12	III	PMC3J	Human Resources Development	<ul style="list-style-type: none"> <li>To learn the basic concepts of Human resource development, different approaches to HRD, HRD styles, structures and competencies.</li> <li>To develop knowledge on the importance of implementing HRD techniques in organizations.</li> <li>To understand the concepts of organizational learning and developing core competencies by implementing HRD practices.</li> <li>To deliver the idea and relevance of qualitative HR practices in the field of training and development</li> </ul>
13	III	PMC3K	Strategic Human Resource Management	<ul style="list-style-type: none"> <li>To gain an understanding on the strategic management process, strategic management model and its components and limitations of strategic management.</li> <li>To develop knowledge on strategy formulation, formulation of company vision, mission and goals, portfolio models and SWOT analysis.</li> <li>To gain an insight into the concept of human resource strategy, its approaches, role of HRM in formulating corporate strategy etc</li> </ul>
14	III	PMC3L	Research Methods	<ul style="list-style-type: none"> <li>To familiarize with the basic understanding of Research process.</li> <li>To learn the role of research in decision making and the scope of research in business.</li> <li>To acquaint students with the steps in research process- research design, data collection, sampling, analysis of data, hypothesis formulation and testing.</li> <li>To provide an insight into the application of modern analytical tools and techniques for the purpose of management decision making</li> </ul>

S. No	Sem	Sub Code	Sub Name	Course outcome
15	III	PMC3M	Labour Welfare	<ul style="list-style-type: none"> <li>To create an understanding of the different social security and welfare programmes offered by organizations.</li> <li>To gain knowledge on the regulatory framework related to employee welfare and security.</li> <li>To understand the issues related to labour administration and management.</li> <li>To gain insight into the labour policy of state and central governments and its implication in various business sectors</li> </ul>
16	III	PMCBB	MIS for Human Resource Management	<ul style="list-style-type: none"> <li>To introduce the concept of information systems for managerial decision making.</li> <li>To acquaint students with the basics of system analysis and development.</li> <li>To gain knowledge on specific information systems, office automation system, concept of ERP, CRM, SCM etc.</li> <li>To gain understanding on the applications of information systems in functional areas-MIS, HRIS etc.</li> </ul>
17	III	PMCAD	Innovation and Entrepreneurship	<ul style="list-style-type: none"> <li>Key concepts underpinning entrepreneurship and its application in the recognition and exploitation of product/ service/ process opportunities</li> <li>Key concepts underpinning innovation and the issues associated with developing and sustaining innovation within organisations</li> <li>How to design creative strategies for pursuing, exploiting and further developing new opportunities</li> <li>Issues associated with securing and managing financial resources in new and established organisations</li> </ul>
18	IV	PMC4N	Compensation Management	<ul style="list-style-type: none"> <li>To learn basic compensation concepts and the context of compensation practice</li> <li>To illustrate different ways to strengthen the pay-for-performance link.</li> <li>To learn the concepts of Payment and employee benefits issues for contingent workers.</li> <li>To understand the legally required employee benefits.</li> <li>To learn some of the implications for strategic compensation and possible employer approaches to managing legally required benefits</li> </ul>

S. No	Sem	Sub Code	Sub Name	Course outcome
19	IV	PMC4P	International Human Resource Management	<ul style="list-style-type: none"> <li>To give an introduction to global human resource management, its nature, scope and significance.</li> <li>To provide knowledge on practices followed in International human resource selection, compensation and appraisal.</li> <li>To gain insight into global training and development practices, types of training programmes, the technicalities of training etc.</li> <li>To provide knowledge on transnational industrial relations, labour relations and conflict resolution in Multinational Corporations etc.</li> </ul>
20	IV	PMCAE	Total Quality Management	<ul style="list-style-type: none"> <li>Given a product or a service type, the student will be able to enumerate and justify the dimensions of product quality or service quality for the same and the student will be able to justify their philosophies/ contributions in Quality Management.</li> </ul>

### **B.Sc. (MATHS)**

1	I	TAM1A	Algebra	<ul style="list-style-type: none"> <li>To learn application of algebra</li> </ul>
2	I	TAM1B	Trigonometry	<ul style="list-style-type: none"> <li>To identify relationship between trigonometric functions</li> </ul>
3	I	SBAME	Calculus of Finite Differences & Numerical Analysis-I	<ul style="list-style-type: none"> <li>To learn to solve real life problems</li> </ul>
4	II	TAM2A	Differential Calculus	<ul style="list-style-type: none"> <li>To learn more about application of calculus</li> </ul>
5	II	TAM2B	Analytical Geometry	<ul style="list-style-type: none"> <li>To become familiar with application of 2D geometry</li> </ul>
6	II	SBAMG	Calculus of Finite Differences & Numerical Analysis-II	<ul style="list-style-type: none"> <li>To learn to solve real life problems</li> </ul>
7	III	TAM3A	Integral Calculus	<ul style="list-style-type: none"> <li>To calculate areas, volumes, surface areas of solid regions</li> </ul>
8	III	TAM3B	Differential Equations	<ul style="list-style-type: none"> <li>To learn various types of differential equations</li> </ul>
9	III	SBAOA	Mathematical Statistics - I	<ul style="list-style-type: none"> <li>To study various types of distributions</li> </ul>
10	IV	TAM4A	Transform Techniques	<ul style="list-style-type: none"> <li>To study about types of series and transforms</li> </ul>
11	IV	TAM4B	Statics	<ul style="list-style-type: none"> <li>To learn about various types or forces</li> </ul>
12	IV	SBAOB	Mathematical Statistics - II	<ul style="list-style-type: none"> <li>To study various types of distributions</li> </ul>
13	V	TAM5A	Algebraic Structures	<ul style="list-style-type: none"> <li>To become familiar with concepts of groups</li> </ul>
14	V	TAM5B	Real Analysis – I	<ul style="list-style-type: none"> <li>To apply various types of functions</li> </ul>
15	V	TAM5C	Dynamics	<ul style="list-style-type: none"> <li>To become familiar in mechanics</li> </ul>
16	V	TAM5D	Discrete Mathematics	<ul style="list-style-type: none"> <li>To apply some applications in circuits</li> </ul>
17	VI	TAM6A	Linear Algebra	<ul style="list-style-type: none"> <li>To become familiar with rings and fields</li> </ul>
18	VI	TAM6B	Real Analysis – II	<ul style="list-style-type: none"> <li>To study in detail about metric spaces and Riemann integrals</li> </ul>
19	VI	TAM6C	Complex Analysis	<ul style="list-style-type: none"> <li>To become familiar with complex functions</li> </ul>
